## EXPLANATORY NOTE

On March 19, 2025, Critical Metals Corp. (the “Company”) issued unaudited condensed consolidated interim financial statements for the six months ended December 31, 2024 and management’s discussion and analysis of financial condition and results of operations (the “MD&A”) for the six months ended December 31, 2024. A copy of the MD&A is attached hereto as Exhibit 99.1, and a copy of such unaudited condensed consolidated interim financial statements is attached hereto as Exhibit 99.2.

The information furnished in Exhibit 99.1 and Exhibit 99.2 to this Report of Foreign Private Issuer on Form 6-K (this “Report”) shall be deemed to be filed with the Securities and Exchange Commission and incorporated by reference into the Company’s registration statement on [Form S-8](#) (File No. 333-280017) (including any prospectuses forming a part of such registration statement) and to be a part thereof from the date on which this Form 6-K is furnished, to the extent not superseded by documents or reports subsequently filed or furnished.

## EXHIBIT INDEX

| Exhibit No. | Description                                                                                                                                                                    |

## SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

### **Critical Metals Corp.**

By: /s/ Tony Sage

Name: Tony Sage

Title: Chief Executive Officer and  
Executive Chairman

Date: March 19, 2025

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

*The following discussion and analysis of our financial condition and results of operations (the "MD&A") should be read together with the unaudited condensed consolidated interim financial statements and the related notes to those statements included as Exhibit 99.2 to this Report on Form 6-K submitted to the Securities and Exchange Commission, or the SEC, on March 19, 2025. We also recommend that you read our discussion and analysis of financial condition and results of operations together with our audited financial statements and the notes thereto, which appear in our Annual Report on Form 20-F for the year ended June 30, 2024 as filed with the SEC on October 30, 2024 (the "Annual Report").*

*In this section, unless otherwise indicated or the context otherwise requires, the terms "we," "our," "us," "Critical Metals," the "Company," and "its" refer to Critical Metals Corp. and its consolidated subsidiaries. All dollar amounts are expressed in thousands of United States dollars ("\$"), unless otherwise indicated.*

*Certain of the information contained in this discussion and analysis or set forth elsewhere in this prospectus, including information with respect to plans and strategy for the Company's business, includes forward-looking statements that involve risks and uncertainties. As a result of many factors, including those factors set forth in the section "Risk Factors" of our Annual Report on Form 20-F for the year ended June 30, 2024 and the other documents filed, or to be filed, the U.S. Securities and Exchange Commission, our actual results could differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis. You should carefully read the section entitled "Risk Factors" to gain an understanding of the important factors that could cause actual results to differ materially from the Company's forward-looking statements.*

### Operating and Financial Review and Prospects

#### Overview of Business

We are a mining development company focused on critical metals and minerals and producing strategic products essential to electrification and next-generation technologies as well as defense application for Europe and its Western world partners. Our main efforts are focused on the development of the Tanbreez Project which is located in southern Greenland, as well as Wolfsberg Project located in Carinthia, Austria, which is approximately 270 kilometers south of Vienna. In addition, we hold a 20% interest in the Weinebene and Eastern Alps Lithium Projects.

#### Our Business Strategy

Our primary strategy is to acquire, explore and develop unique and permitted critical metals mining assets that we expect will benefit from robust regulatory tailwinds in both Europe and North America and long-term secular trends for next generation technology in environmental, commercial and government applications. Our foundational assets are the Tanbreez rare earths deposit in Greenland and Wolfsberg lithium assets in Austria. We expect to focus our efforts on rare earths and critical metals and minerals to produce strategic products essential for a transition to sustainable low carbon emission technologies for Europe and its western world partners, as well as developing a low cost, highly sustainable source of lithium hydroxide manufactured from spodumene concentrate, providing European battery and EV manufacturers improved continuity of supply, reducing their dependence on the battery supply from Chinese manufacturers, while also helping them meet their environmental commitments. In addition to the development of the Wolfsberg Project, we believe this approach will allow us to become one of the most sustainable, cost-effective and strategic minerals suppliers in the world, and further help potential customers achieve their important environmental, social and governance goals required by shareholders and regulatory agencies.

As part of our business strategy, we intend to seek to acquire assets and operations that are strategic and complementary to our existing operations. This may include acquisitions or investments in complementary companies, assets, mines, products or technologies, including in other rare earth elements and minerals. We may have opportunities to make acquisitions from third parties jointly with European Lithium Limited ("EUR"), and in some cases, we may acquire assets or other operations directly from EUR or its affiliates. EUR has no obligation to sell any additional assets to us or to accept any offer that we may make for any additional assets, and we may decide not to acquire such additional assets even if EUR or an affiliate offers them to us.

We have in the past evaluated and pursued, and intend in the future to evaluate and pursue, rare earth-related assets and other critical metals assets that have characteristics and opportunities similar to our existing business lines and enable us to leverage our asset base, knowledge base and skill sets. Such acquisition efforts may involve participation by us in processes that have been made public and involve a number of potential buyers, commonly referred to as "auction" processes, as well as situations in which we believe we are the only party or one of a limited number of potential buyers in negotiations with the potential seller. These acquisition efforts often involve assets which, if acquired, could have a material effect on our financial condition and results of operations. We typically do not announce a transaction until after we have executed a definitive acquisition agreement. Discussions and negotiations regarding a potential acquisition can advance or terminate in a short period of time. Moreover, the closing of any transaction for which we have entered into a definitive acquisition agreement will be subject to customary and other closing conditions, which may not ultimately be satisfied or waived. Accordingly, we can give no assurance that our current or future acquisition efforts will be successful. Although we expect the acquisitions we make to be accretive in the long term, we can provide no assurance that our expectations will ultimately be realized.

## Recent Developments and Review of Operations

### *Tanbreez Project Investment*

On June 5, 2024, we entered into the Heads of Agreement with Rimbal Pty Ltd (“Rimbal”), pursuant to which we would acquire an interest in the Tanbreez Project. On June 18, 2024, pursuant to the Heads of Agreement, we acquired a 5.55% interest in Tanbreez in exchange for the payment of \$5 million in cash to Rimbal. On July 23, 2024, pursuant to the Heads of Agreement, we acquired the Stage 1 Interest in Tanbreez in exchange for the issuance by us to Rimbal of approximately 8.4 million ordinary shares, bringing our total equity ownership in Tanbreez to 42%. The ordinary shares were issued to Rimbal in a private placement exempt from the registration requirements of the Securities Act, in reliance on the exemptions set forth in Section 4(a)(2) of the Securities Act.

Pursuant to the Heads of Agreement, if we invest \$10 million in exploration expense in Tanbreez within two years from the date of the Heads of Agreement, we will have the option to acquire the Stage 2 Interest by issuing additional ordinary shares to Rimbal with a value equal to \$116 million at such time. The closing of the Stage 2 Interest is subject to other customary closing conditions, including additional governmental approvals by the Greenland government. There is no guarantee that the acquisition of the Stage 2 Interest will occur.

On 4 September 2024, we announced the commencement of a confirmation and resource extension diamond drilling program at the Tanbreez Project. The drilling program consisted of 16 holes with a total cumulative length of up to 2,200 m. This confirmatory drill program was designed to optimise the resource for future production capacity and to extend the mine life of the Tanbreez Project.

The program was conducted by the experienced Greenland drilling contractor, 60 North Greenland, and was supervised by a team of internationally acclaimed rare earths experts including Mr. Gregory Barnes, the founder of the Tanbreez Project, Mr. Hans Kristian Schönwandt, a former Deputy Minister of Mines for Greenland, and Mr. Ole Christiansen. These industry experts bring together an extensive knowledge of the Tanbreez deposit and over 40 years of experience in the development of mining projects from greenfield stage to production.

The samples from the first hole have now been received from the laboratory.

On 13 March 2025, we announced the maiden mineral resource estimate (MRE) in accordance with Regulation SK-1300 report for the Tanbreez Project.

The Tanbreez mineralization is a highly fractionated Zr-Nb-Ta- REE, including HREE, deposit in the southern part of the Ilimaussaq intrusive complex in South Greenland. The Ilimaussaq intrusion is possibly the most differentiated deposit known globally to date, covering a potential area of 18 km long and 8 km wide, and of significant depth, that covers a portion of the Tanbreez tenement.

The commodities are hosted in the mineral eudialyte being concentrated in the kakortokite rock layer at the floor of the exposed intrusion. The kakortokite sequence outcrops over an area of 5.0 km by 2.5 km and has a total thickness of 270 m.

The assays from the first drill hole confirm a significant 40 m wide intersection of high-grade rare-earth oxide averaging 4,722.51 ppm TREO (including 26.96% averaged heavy rare earth” HREO”), 1.82% ZrO<sub>2</sub> “zircon oxide”, 130.92 ppm Ta<sub>2</sub>O “tantalum pentoxide”, 1852.22 ppm Nb<sub>2</sub>O<sub>5</sub> “niobium pentoxide”, 393.68 ppm HfO<sub>2</sub> “hafnium oxide” and 101.67 ppm Ga<sub>2</sub>O<sub>3</sub> “gallium oxide” (See Appendix 1 Sample and assay sheet and Appendix 2 Drill hole collars).

Initial results from drilling program demonstrated significant upside potential for a globally significant rare earth asset in Southern Greenland. Based on initial results obtained from Critical Metals Corp’s recent drilling program, four high-grade zones have now been identified. These zones are expected to play a significant role in the Company’s strategy for optimising its mining operations and increasing throughput (the Tanbreez Project is currently licensed for 500,000 metric tons per year). The identification of these zones is a key milestone in the ongoing development of the project.

### High Grade Zones

- Unit Zero – This unit is up to 5 meters thick and is located approximately 50 metres behind the proposed plant location. This unit represents a potential target for future exploration.
- Base of the Kakortokite – At this zone there is a metasomatic replacement by eudialyte of the underlying unit. The unit possesses a high-grade rare earth element material, which is located approximately 40 meters below the surface.
- EALS – This horizon is entirely separate from the Kakortokite and occurs within the overlying naujaite. In some areas, the unit is high-grade and can be traced for approximately 3 kilometres, with a thickness of up to 80 meters. This year, the company conducted surface diamond drilling and extensive sampling across the unit. Notably, the percentage of heavy rare earths within the rare earth fraction ranged up to 40.8%.
- Area G – This area, identified this year, spans over 1 km<sup>2</sup> and contains extensive late-stage pegmatites and pegmatite scree. The area also holds high-grade ore in a zone that will adjoin the proposed road to the tailings area. There was a high concentration of Gallium discovered in this zone, with values reaching up to 147 ppm Ga<sub>2</sub>O<sub>3</sub>.

### Discovery of Gallium

The discovery of a significant amount of Gallium at Area G, further demonstrates the Tanbreez Project's immense value. Gallium is a critical metal that is primarily produced as a by-product of bauxite mining, with additional sources from zinc smelters. Currently, approximately 98% of the world's gallium production is sourced from China, where it is primarily a by-product of bauxite mining. Certain South American bauxite deposits contain up to 80 ppm of Ga<sub>2</sub>O<sub>3</sub>.

The growing gallium market, currently worth billions of dollars per year and expanding at an annual rate of approximately 20%, presents a valuable opportunity for the Company. Critical Metals Corp plans to investigate the mineralogy of the gallium in this zone and assess its potential as a viable by-product.

### Exploitation License Extension

On 15 October 2024, we announced that the Greenland Government has granted an extension to certain deadlines under the Exploitation license of the Tanbreez Project (License No. 2020-54) to 2028. Under the new amendment, Tanbreez Mining Greenland A/S is required to submit its exploitation and closure plans by the end of 2025, provide financial security and a company guarantee by June 30th, 2026, and commence the exploitation of minerals by the end of 2028.

### *Wolfsberg Lithium Project*

On 2 December 2024, the Wolfsberg Project received the decree from the Carinthian state government with confirmation that an Environmental Impact Assessment (EIA) is not required. The decree stipulates that given the Wolfsberg Project relates to underground mining where the surface area required by the above-ground facilities is less than 10 hectares, that the Wolfsberg Project is not subject to a full-scale environmental approval process as required by law. The decree fast-tracks the transition from exploration into mining operation from the environmental perspective and is an important and critical milestone moving towards operational readiness to become one of the first integrated European producers of battery-grade Lithium monohydrate to BMW in Germany. The Wolfsberg Project has a binding long term supply agreement (LTA) with top tier European auto manufacturer BMW AG for the offtake of battery grade lithium hydroxide (refer ASX Announcement 21 December 2022 and 6 June 2024).

The Wolfsberg Project has completed, with the local energy supplier KELAG, the planning and technical layout of the energy supply corridor from the nearby municipality of Frantschach St Gertraud to the mine and concentrator site at the Weinebene. It is expected to commence building of the energy corridor in H1/2025 (dependant on KELAG) and is considered as the official project start in several stages from exploration towards operational readiness.

The assessment by the EIA authority covered the entire project on the Koralpe, i.e. the planned underground mining, the surface mining facility for the production of a spodumene concentrate, the energy supply lines and necessary clearance, and the refilling of the empty mining chambers with the surplus mining material, as well as an examination of interactions with other projects. The audit was carried out by official experts from the departments of forestry, nature conservation, geology, hydrogeology, waste management, chemistry, process engineering, water ecology and water management as well as torrent and avalanche control. On the basis of this comprehensive case-by-case examination, in which all relevant facts of the EIA Act were taken into account, the EIA authority came to the conclusion that an EIA was not necessary.

We continue to advance discussions for project financing for the Wolfsberg Project, as it approaches a build decision.

#### *Joint Venture with Obeikan Investment Group*

On July 9, 2024, we accepted the assignment of EUR's interest in the Joint Venture with Obeikan. In connection with such assignment, we and Obeikan entered into the Shareholders Agreement related to the Joint Venture. Obeikan has agreed to ratify the Shareholders Agreement to form a joint venture with the Company related to the construction and development of a lithium hydroxide processing plant in the Kingdom of Saudi Arabia to process spodumene concentrate produced from the Wolfsberg Project.

#### **Factors that May Influence Future Results of Operations**

Our financial results of operations may not be comparable from period to period due to several factors. Key factors affecting our results of operations are summarized below.

We are an exploration stage mining and development company focusing on the development of the Tanbreez Project which is located in southern Greenland, as well as of our wholly-owned Wolfsberg Project located in Carinthia, Austria, which is approximately 270 kilometers south of Vienna.

We have declared mineral resources on our Wolfsberg Project but we have not yet begun to extract any mineral from the property. The exploration and development of the mineral deposits located at the Wolfsberg Project involves a high degree of financial risk and uncertainty. We have not commenced production in connection with the Wolfsberg Project and, consequently, we do not currently have any operating income or cash flows. Accordingly, we do not currently generate any revenues. Since the acquisition of the Wolfsberg Project in 2011, we have devoted most of our cash resources to the exploration and development of the Wolfsberg Project. As of December 31, 2024 and June 30, 2024, we have spent approximately \$34.6 million and \$35.2 million, respectively, in connection with our exploration and evaluation activities. For the half year ended December 31, 2024 and December 31, 2023 our cash expenditures were approximately \$0.5 million and \$0.6 million, respectively, in connection with our exploratory work and our evaluation of the Wolfsberg Project.

We are an exploration stage mining and development company focusing on the development of our recently acquired, and permitted, foundational asset, the Tanbreez Project, located in Southern Greenland, which is approximately 3km west of Narsaq, the Provincial Capital. The regional capital, Qaqortoq, is 20 km to the south and the regional airport of Narsarsuaq is being moved to approximately 12 km south of the license. We have not begun to extract any minerals from the property. The exploration and development of the mineral deposits located at the Tanbreez Project involves a high degree of financial risk and uncertainty. We have not commenced production in connection with the Tanbreez Project and, consequently, we do not currently have any operating income or cash flows. Accordingly, we do not currently generate any revenues. As of December 31, 2024 and June 30, 2024, we have a carrying value of \$95.9 million and \$5 million, respectively in connection with the acquisition costs and our exploration and evaluation activities. For the half year ended December 31, 2024 and December 31, 2023 our cash expenditures were approximately \$0.7 million and \$nil, respectively, in connection with our exploratory work and our evaluation of the Tanbreez Project.

### ***Timing of Current Projects and Future Geographic and Product Expansion***

Our financial results and liquidity needs vary from quarter-to-quarter or year-to-year depending on the timing of:

- the engagement of our key consultants and suppliers;
- the completion of the DFS at the Wolfsberg Project focusing specifically on the mining mine/concentrator operations only;
- obtaining and renewing the applicable permits with the relevant mining authorities in Austria and Greenland;
- obtaining project financing and/or other sources of capital for the development of the Wolfsberg Project in Austria and the Tanbreez Project in Greenland;
- the development and construction of mine and plant at the Wolfsberg Project;
- the commencement of production at the Wolfsberg Project, which is expected to occur in 2028, subject to the results of the completed DFS;
- receipt of results following the exploration and drilling program carried out at the Tanbreez Project in Greenland;
- completion of the geological, geochemical, engineering studies, Environmental Impact assessment and Socio -Economic Studies for Project Tanbreez in Greenland;
- the development and construction of the mine and processing facilities at the Tanbreez Project in Greenland.

Additionally, we expect both our capital and operating expenditures will increase significantly in connection with our ongoing activities, as we:

- hire additional personnel;
- continue to work on the completion of the DFS for the Wolfsberg Project;
- conduct geological, geochemical, engineering studies, Environmental Impact assessment and Socio -Economic Studies for Project Tanbreez in Greenland;
- commence exploration activities in Zone 2 of the Wolfsberg Project;
- commence exploration activities at the Tanbreez Project;
- enter into financing and project financing arrangements in connection with the development of the Wolfsberg Project and Tanbreez Project; and
- continue to operate as a public company on the Nasdaq.

### ***Industry Growth***

Our financial profile is associated with several secular trends in the mining industry. Demand for our product is, in part, driven by the growth of our underlying end markets and how much capital our customers invest to support their businesses. We are also impacted by the global supply and demand for lithium, rare earths and critical minerals and metals products.

Our ability to generate revenue is sensitive to rapidly changing consumer preferences and industry trends, as well as the popularity of consumer products using lithium products, such as electronic vehicles. In December 2022, we entered a long-term Offtake Agreement with BMW, pursuant to which BMW will purchase battery grade lithium hydroxide produced by the Wolfsberg Project. We believe that we are well-positioned at the intersection of key long-term macro trends, however, changes in inflationary pressures, commodity prices, energy costs, changes in legislative environment or global industry trends could result in significant fluctuations towards the path of production.

## ***Market and Economic Conditions***

Our business depends on the economic extraction of lithium from the Wolfsberg Project and other critical metals and minerals from our other projects, including the Tanbreez Project, and the sales products to our offtake partners. Many factors related to the economic extraction of lithium, including economic conditions affecting disposable consumer income and ultimate demand for consumer items that rely on the production of lithium products, unemployment levels, fuel prices, interest rates, inflationary pressures, changes in tax rates and tax laws that impact companies or individuals and inflation, can impact our operating results.

## ***Seasonality***

The Wolfsberg Project is located in Wolfsberg, Austria. While the seasonal impact is minimal, the timing for the execution of some exploration activities is impacted as a result of the winter conditions experienced in that region.

The Tanbreez Project is located in Southern Greenland. Greenland is often considered “ground zero” for the climate crisis because even small shifts in temperature can have outsize impacts across the entire Arctic region. Logistics, exploration and future mining activities could be largely impacted by severe weather conditions, including but not limited to storms, sea ice movements etc.

At a regional scale the weather in South Greenland is mainly influenced by the North American continent and the North Atlantic Ocean. But the local climate is also heavily influenced by the Greenland Inland Ice. Another key factor is the all year round low sea surface temperature which is causing the South Greenland waters and coasts to be part of the arctic zone with summer temperatures below 10 degree C. Further inland, the weather type is more of a continental type and in South Greenland average summer temperatures can locally exceed the 10 degree threshold, which limit the arctic region. Gale force winds (above 13.8 m/s) are common in South Greenland in particular in winter. Sea ice, originating from glaciers, sometimes enters the fjords and could also have an impact on the operations.

## ***Impact of Inflation***

The COVID-19 pandemic and the outbreak of war in the Ukraine and Middle East led to problems in global supply chains which caused supply bottlenecks in many sectors of the economy. The principal factors contributing to the inflationary pressures that have been experienced or will be experienced include but are not limited to Europe’s supply chain for critical materials, such as energy (gas and electricity) and reagents.

We may continue to experience inflationary pressures in the future, particularly after the Wolfsberg Project has commenced production. In order to combat inflation before the Wolfsberg Project begins producing, we may take certain actions such as monitoring operating expenses, limiting headcount, and implementing other measures we deem beneficial to minimize inflationary pressures and avoid unnecessary costs.

## ***Risks Associated with Future Results of Operations***

Please refer to the discussion of the Risk Factors in the Company annual report on the form 20-F filed with the Securities and Exchange Commission on October 30, 2024.

## ***Presentation of Financial Information***

Our condensed consolidated financial statements for the half year ended December 31, 2024 and our audited financial statements for the year ended June 30, 2024 were prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

## Statement of Financial Position

### Financial Position as of December 31, 2024, and June 30, 2024

The following table summarizes our consolidated statement of financial position as of December 31, 2024 and June 30, 2024. All amounts are shown in U.S. dollars.

|                                                 | 31 December<br>2024<br>\$ | 30 June<br>2024<br>\$ |
|-------------------------------------------------|---------------------------|-----------------------|
| <b>ASSETS</b>                                   |                           |                       |
| <b>Current Assets</b>                           |                           |                       |

Compliance and regulatory fees increased \$348 thousand, or 852%, to \$389 thousand for the half year ended December 31, 2024 compared to \$41 thousand for the half year ended December 31, 2024, and were attributable to the Company's compliance with the securities laws and regulations in the United States.

#### *Administrative Expenses*

Administrative expenses increased \$160 thousand, or 2,762%, to \$166 thousand for the half year ended December 31, 2024 compared to \$6 thousand for the half year ended December 31, 2023.

#### *Promotion, IR, and PR Expenses*

Promotion, IR and PR Expenses were \$183 thousand for the half year ended December 31, 2024, compared to \$32 thousand, or an increase of \$150 thousand or 462%, mainly attributable to the costs related to investor relation expenses of the Company.

#### *Insurance*

Insurance expenses was \$1,345 thousand for the half year ended December 31, 2024 and were related to the to the director and officers (D&O) insurance program put in place by the Company for its Board of Directors and executives.

#### *Finance Costs*

Finance costs increased \$170 thousand, or 1,343%, to a gain of \$158 thousand for the half year ended December 31, 2024 compared to a \$13 thousand expense for the half year ended December 31, 2023. The reduction is due to the reversal of accrued interest amount owing on the payable with GEM in recognition of the revised letter agreement entered into with GEM.

### *Depreciation expenses*

Depreciation expenses reduced by \$3 thousand, or 75%, to \$1 thousand for the half year ended December 31, 2024 compared to \$4 thousand for the half year ended December 31, 2023.

### *Depreciation expenses — leased asset*

Depreciation expenses on leased assets reduced by \$9 thousand, or 64%, to \$5 thousand for the half year ended December 31, 2024 compared to \$14 thousand for the half year ended December 31, 2023.

### *Merger Expenses*

Merger expenses were nil for the half year ended December 31, 2024 compared to \$1.6 million for the half year ended December 31, 2023.

### *Exploration expenditure expensed*

Exploration expenditure expensed was \$238 thousand for the half year ended December 31, 2024 and were related to our shares of expenses relating to the joint venture with OIG group.

### *Gain on Fair Value of Warrants*

Gain on Fair Value of Warrants was \$6.1 million for the half year ended December 31, 2024. Gain on Fair Value of Warrants is primarily attributable to change in fair value of warrants accounted for as financial liabilities.

### *Share of net profits of JV accounted for using the equity method*

Share in net profits of joint venture was \$101 thousand for the half year ended December 31, 2024 and were related to our shares of profit associated with the Tanbreez Project.

## **C. Liquidity and Capital Resources**

### *Sources and Uses of Liquidity*

On a historical basis, our principal source of liquidity has been capital contributions from related parties. Our principal uses of cash have been for the exploration and evaluation of the development of the Wolfsberg Project, the Tanbreez Project and the consummation of the Business Combination. As of December 31, 2024 and June 30, 2024, we had approximately \$0.1 million and \$1.3 million, respectively, of unrestricted cash.

We expect our capital expenditures and working capital requirements to continue to increase materially in the near future as we seek to continue development of the Wolfsberg Project and the Tanbreez Project. Our actual future capital requirements will depend on many factors, including the results of our DFSs and other studies, final investment decision ahead of the development and construction at the Wolfsberg Project, exploration activities in Zone 2 of the Wolfsberg Project and costs associated with maintaining the Wolfsberg Project site. Our near-term capital requirements with respect to the Tanbreez Project, in accordance with the Heads of Agreement, are expected to include, but not be limited to, mineral exploration and various test work, including metallurgical test work, engineering, geological and logistics studies, socio economic, community and environmental impacts assessments, and construction of roads and operational camps and sites. In addition, we have incurred and expect to continue to incur additional costs as a result of operating as a public company.

Substantial doubt exists about our ability to continue as a going concern within one year after the date that the financial statements are available to be issued. We will continue efforts to remedy the conditions or events that raise this substantial doubt, however, as some components of these plans are outside of management's control, we cannot offer any assurances they will be effectively implemented. We also cannot offer any assurance that any additional financing will be available on acceptable terms or at all. Our consolidated financial statements have been prepared on a going concern basis, which contemplates the continuity of normal business activities and the realization of assets and the settlement of liabilities in the ordinary course of business. We cannot be sure that any additional financing will be available to us on acceptable terms if at all. If we are unable to raise additional capital when desired, our business, operating results, and financial condition could be adversely affected.

On July 4, 2023, we entered into the GEM Agreement, pursuant to which we are entitled to draw down up to \$125 million of gross proceeds (“**Aggregate Limit**”) from GEM Investor in exchange for Ordinary Shares, subject to meeting the terms and conditions of the GEM Agreement. This equity line facility is available for a period of 36 months from the Closing of the Business Combination.

In addition, we are currently engaged in discussions with various parties to seek to mitigate our near-term liquidity needs. For example, we are engaged in discussions with EUR to obtain short-term funding, although EUR is under no obligations to provide such funding, and we may ultimately not agree to the terms of such funding. In addition, we would receive proceeds from the exercise of Warrants to the extent such Warrants are exercised for cash.

We expect that our strategic collaboration with Obeikan to build and operate a hydroxide plant in Saudi Arabia for the Wolfsberg Project will be beneficial to us, as it would reduce our future costs to build and operate a lithium hydroxide plant on our own. In addition, once operational, the hydroxide plant is expected to significantly reduce energy costs and deliver savings in operating expenditures and capital expenditures related to the Wolfsberg Project that would otherwise be borne by us.

We have in the past engaged in, and we will continue to engage in, various discussions with third parties related to additional potential equity investments in us. These investments may take the form of convertible preferred shares, ordinary shares or other equity or debt securities. Any equity securities issued may provide for rights, preferences, or privileges senior to those of holders of our ordinary shares. We may also engage in debt financings. If we raise funds by issuing debt securities, these debt securities would have rights, preferences, and privileges senior to those of holders of our ordinary shares. The terms of debt securities or borrowings could impose significant restrictions on our operations. The credit market and financial services industry have in the past, and may in the future, experience periods of uncertainty that could impact the availability and cost of equity and debt financing. Our ability to access capital when needed is not assured and, if capital is not available to us when, and in the amounts needed, we could be required to delay, scale back, or abandon some or all of our expansion efforts and other operations, which could materially harm our business, financial condition and results of operations.

Subsequent to the period end, on 21 January 2025, we announced that it had approved a comprehensive bitcoin (BTC) treasury strategy, adopting BTC as a primary asset in its treasury program. As part of the convertible note financing, led by JBA Asset Management, Critical Metals Corp may have access to up to \$500 million to purchase BTC subject to the conditions of the Transaction Documents, with \$100 million closing in the first tranche (the “Initial Closing”), which may be used to purchase BTC, subject to certain conditions being met. At the Initial Closing, the Company shall issue to the lead investor (i) 1,000,000 ordinary shares of the Company and (ii) warrants to purchase 14,285,714 ordinary shares. The Initial Closing is expected to occur in the second quarter of 2025; however, no assurances can be given that the closing conditions will be met or that the Initial Closing will occur.

Subsequent to the period end, on 7 February 2025, the Company completed a private placement of its ordinary shares resulting in aggregate gross proceeds of approximately US\$24.6 million (before expenses). Funding raised will be used in developing plans for both the Tanbreez Project and Wolfsberg Project and for general corporate and working capital purposes. Under the terms of the securities purchase agreement, the Company issued approximately 4.9 million ordinary shares (the “PIPE Shares”) and warrants to purchase ordinary shares (the “PIPE Warrants”), in an amount equal to 100% of the aggregate PIPE Shares, an aggregate offering price of US\$5.00 per PIPE Share and PIPE Warrant. The PIPE Warrants have a strike price of US\$7.00 and an expiry date of 4-years from Issue Date. The shares sold in the private placement are subject to resale registration rights.

## **Contractual and Other Obligations**

### ***Commitments***

#### ***Wolfsberg Lithium Project***

The DFS is currently work in progress due to the substantial changes of the lithium products prices, increased planned production volumes of lithium hydroxide and plans to build and operate the plant in the Kingdom of Saudi Arabia as a part of newly formed joint venture with Obeikan. Additional studies for the costs optimization of are expected to be completed in the near future. Future capital requirements for the development and construction of the Wolfsberg Project are dependent on a number of factors as outlined above and are expected to be financed primarily through a project financing arrangement in the future.

#### ***Tanbreez Project***

The Company currently has a 42% equity interest in the Tanbreez Project. If we invest \$10 million in exploration expense in Tanbreez within two years from the date of the Heads of Agreement, we will have the option to acquire the Stage 2 Interest by issuing additional ordinary shares to Rimbal with a value equal to \$116 million at such time. The closing of the Stage 2 Interest is subject to other customary closing conditions, including additional governmental approvals by the Greenland government. There is no guarantee that the acquisition of the Stage 2 Interest will occur.

### ***Related Party Capital Contributions***

Prior to the Business Combination, ELAT and certain of its subsidiaries have received financing from our parent company, European Lithium Limited. As of June 30, 2024 we and certain of our subsidiaries have received capital contributions with a balance of \$45.7 million.

Following completion of the merger transaction, EUR has continued to provide financial support to the Company. As at 31 December 2024, the amount owing was \$6,008,590 (30 June 2024: \$4,268,857).

### **Cash Flows**

The following table summarizes our cash flows for the periods presented.

|                                                             | <b>31 December<br/>2024<br/>\$</b> | <b>31 December<br/>2023<br/>\$</b> |
|-------------------------------------------------------------|------------------------------------|------------------------------------|
| <b>Cash flows from operating activities</b>                 |                                    |                                    |
| Payments to suppliers and employees                         | (2,393,004)                        | (893,167)                          |
| Proceeds from related party borrowings                      | -                                  | 143,267                            |
| Finance costs                                               | -                                  | (4,643)                            |
| Grants received                                             | 98,246                             | 540                                |
| VAT refund received/(paid)                                  | (11,091)                           | (48,729)                           |
| Interest received                                           | 4,070                              | -                                  |
| Business combination expenses                               | (287,107)                          | -                                  |
| <b>Net cash (used in) operating activities</b>              | <b>(2,588,886)</b>                 | <b>(802,732)</b>                   |

| <b>Cash and cash equivalents at end of period</b>           | <b>149,480</b>                     | <b>201,731</b>                     |

### ***Cash Flows from Operating Activities***

During the half years ended December 31, 2024 and 2023, we incurred net cash outflows of \$2.6 million and \$0.8 million, respectively mainly attributable to the increased payments to suppliers.

### ***Cash Flows from Investing Activities***

Our net cash from investing activities for the half year ended December 31, 2024 and 2023 was \$1.3 million and \$0.6 million, respectively, primarily in the payments for exploration and evaluation in the development of the Wolfsberg Project, payments towards the Tanbreez Project and contribution to the joint venture with Obeikan.

### ***Cash Flows from Financing Activities***

Net cash provided by financing activities during the half years ended December 31, 2024 and 2023 was \$2.4 million and \$1.4 million, respectively, primarily from capital contributions from related parties and proceeds receipt upon the exercise of warrants.

## Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with IFRS. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of annual or interim financial statements will not be prevented or detected on a timely basis. In connection with the preparation of our consolidated financial statements for the six-month periods ended December 31, 2024, and 2023, we and the auditors identified the following six material weaknesses in our internal control over financial reporting, which remained not remediated since previous periods:

- The Company did not maintain a sufficient complement of personnel and lack of to permit the segregation of duties among personnel with access to the Company's accounting and information systems and controls.
- As a result of the lack of personnel, the Company lacks the controls needed to assure that the accounting for its related party transactions is accurate and complete.
- The Company lacks the controls needed to assure that the accounting for its accounts payable and accrued expenses is accurate and complete.
- The Company lacks the controls needed to perform an adequate review to the income tax provision and to assure the complete disclosures in the financial statements' footnotes.
- The Company lacks the controls needed for the proper accounting for complex financial instruments.
- The Company does not maintain an adequate cybersecurity program to help prevent, detect and respond to risks such as financial loss, or loss of financial data, damage or disruption to operations, susceptibility to a repeated attack, and overall failure of information technology systems.

We aim to take certain measures to remediate these material weaknesses by setting up controls and systems to address items noted above, although no assurance can be given as to whether these steps will be sufficient. These material weaknesses may not be timely remediated and general reputational harm could result or persist, which could affect our business, operations and financial condition. The failure to implement and maintain effective internal control over financial reporting could result in material misstatements in the financial statements, which could require us to restate financial statements, cause investors to lose confidence in the reported financial information and have a negative effect on the price of our ordinary shares.”

Except as disclosed above, there were no changes in our internal controls over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act) that occurred during the periods covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**CRITICAL METALS CORP**  
**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE HALF YEARS ENDED 31 DECEMBER 2024 AND 2023 (UNAUDITED)**

---

**1. CORPORATE INFORMATION**

The financial report of Critical Metals Corp (**CRML** or the **Company**), and its wholly owned entities as disclosed in Note 31 (the **Group**) for the half years ended 31 December 2024 and 31 December 2023 was authorised for issue in accordance with a resolution of the directors on 18 March 2025.

On 26 October 2022, European Lithium Ltd (ASX: EUR) (**EUR**) announced that it has entered into a business combination agreement with Sizzle Acquisition Corp., a US special purpose acquisition company listed on NASDAQ (NASDAQ:SZZL) (**Sizzle**), pursuant to which EUR will effectively sell down its shareholding in European Lithium AT (Investments) Ltd, ECM Lithium AT GmbH and ECM Lithium AT Operating GmbH (collectively **EUR Austria**), which hold the Wolfsberg Lithium Project (the **Wolfsberg Project**) and certain other mineral permits prospective for lithium in Austria, in consideration for the issue of shares in the Company (**Transaction**). The Transaction was approved by EUR shareholders on 20 January 2023 and on 22 February 2024, Sizzle shareholders approved the Transaction at a special meeting. CRML commenced trading on the Nasdaq on 28 February 2024.

The nature of the operations and principal activities of the Company during the period was lithium exploration in Austria. The Group is focused on the development of the wholly-owned Wolfsberg Project located in Carinthia, Austria. The Group has legal right and tenure over the Wolfsberg Project through its wholly owned subsidiary ECM Lithium AT GmbH (**ECM Lithium**). ECM Lithium has 54 exploration licenses which are valid until 31 December 2029 and 20 mining licenses which are valid until 31 December 2025. In addition, the Group holds a 20% interest EV Resources GmbH, an unlisted entity which holds the Weinebene and Eastern Alps Lithium Projects as well as a 42% interest in Tanbreez Mining Greenland A/S an unlisted entity which holds an exploitation permit for rare earths in Greenland.

The Company is a public company limited by shares incorporated and domiciled in the British Virgin Islands whose shares are publicly traded on the NASDAQ. The registered office of the Company is at Kingston Chambers, PO Box 173, Road Town, Tortola, British Virgin Islands.

**2. SUMMARY OF MATERIAL ACCOUNTING POLICIES**

**a) Basis of preparation**

The financial report is a general-purpose financial report, which has been prepared in accordance with International Financial Reporting Standards (**IFRS**) as issued by the International Accounting Standards Board (**IASB**). The Company is a for-profit entity for the purpose of preparing the financial statements.

These interim consolidated financial statements are general purpose financial statements prepared in accordance with the requirements of applicable accounting standards including *IAS 134 Interim Financial Reporting*, Accounting Interpretations and other authoritative pronouncements in accordance with IFRS.

The interim financial report does not include full disclosures of the type normally included in an annual financial report. Therefore, it cannot be expected to provide as full an understanding of the financial performance, financial position and cash flows of the Group as in the full financial report. As such, it is recommended that this interim financial report be read in conjunction with the annual financial report for the year ended 30 June 2024 and any public announcements made by the Company and its subsidiaries during the half-year. The results of operations of unaudited interim periods are not necessarily indicative of the results to be expected for the entire year, or any other period.

The financial report has also been prepared on the accruals basis and historical cost basis.

The accounting policies set out below have been applied consistently to all periods presented in the financial report except where stated.

**b) Going concern**

The consolidated financial statements of the Group have been prepared on a going concern basis which contemplates the continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

For the half-year ended 31 December 2024 the Group incurred a loss after income tax of \$14,378,454 (31 December 2023: \$1,839,709 loss), net cash outflows from operating activities of \$2,588,886 (31 December 2023: \$802,732), a working capital deficit (excluding liability that will be settled in CRML shares) of \$17,388,215 (30 June 2024: \$13,787,072 surplus) and at that date had cash on hand of \$149,480 (30 June 2024: \$1,259,242).

**CRITICAL METALS CORP**  
**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE HALF YEARS ENDED 31 DECEMBER 2024 AND 2023 (UNAUDITED)**

---

The Group's ability to continue as a going concern and to continue to fund its planned expanded activities is dependent on raising further capital, funds received from the exercise of warrants, CRML ability to drawdown on the financing facility previously entered into with convertible note financing (refer to events after reporting period), continued support from related party creditors, continued support from nonrelated parties in respect to the payment of overdue amounts and reducing operational costs and spend on exploration.

These conditions indicate a material uncertainty that may cast a significant doubt about the Group's ability to continue as a going concern and, therefore, that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

The Directors believe that it is reasonably foreseeable that the Group will continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report after consideration of the following factors:

- The successful completion of the PIPE subsequent to the period end (refer to events after reporting period);
- The Company continues to seek funding options required to undertake its next phase of exploration activities; and
- Ability to defer exploration expenditures.

Should the Group not be able to continue as a going concern, it may be required to realise its assets and discharge its liabilities other than in the ordinary course of business. The financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or liabilities that might be necessary should the Group not continue as a going concern.

**c) Application of new and revised accounting standards**

*Changes in accounting policies on initial application of Accounting Standards*

In the half years ended 31 December 2024, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the IASB that are relevant to the Company and effective for the full year reporting periods beginning on or after 1 July 2024. As a result of this review, the Directors have applied all new and amended Standards and Interpretations that were effective as at 1 July 2024 with no material impact on the amounts presented and the disclosures included in the financial report.

*New accounting standards and interpretations not yet adopted*

Certain new accounting standards and interpretations have been published that are not mandatory for 31 December 2024 reporting periods and have not been early adopted by the Group. The Group's assessment of the impact of these new standards and interpretations has not identified any impact.

There are no other standards that are not yet effective and that would be expected to have a material impact on the Group in the current or future reporting periods and on foreseeable future transactions.

**d) Principles of consolidation**

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases. A list of controlled entities is contained in Note 31 to the financial statements.

All inter-group balances and transactions between entities in the Group, including any unrealised profits or losses, have been eliminated on consolidation. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with those adopted by the Parent Entity.

**e) Significant accounting estimates and assumptions**

The carrying amounts of certain assets and liabilities are often determined based on estimates and assumptions of future events. The key estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of certain assets and liabilities within the next annual reporting period are:

Share-based payment transactions

The Company measures the cost of equity-settled transactions by reference to the fair value of the equity instruments at the date at which they are granted. The fair value of unlisted equity-settled transaction is determined using a Black-Scholes option pricing or Monte Carlos Simulation model taking into account the terms and conditions upon which the instruments were granted. The fair value of listed equity-settled share options granted was based on the fair value of financial instruments traded in active markets based on the quoted market prices at the grant date.

**CRITICAL METALS CORP**  
**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE HALF YEARS ENDED 31 DECEMBER 2024 AND 2023 (UNAUDITED)**

---

Deferred exploration and evaluation expenditure

The application of the Group's accounting policy for exploration and evaluation expenditure requires judgement in determining whether it is likely that future economic benefits are likely from future exploitation or sale or where activities have not reached a stage which permits a reasonable assumption of the existence of reserves.

Determining of functional currency

Based on the primary indicators in IAS 21 *The Effects of Change in Foreign Exchange Rates*, the Euro and US Dollar has been determined as the functional currency of various entities within the Group, because the Euro and US Dollar is the currency that mainly influences labour, material and other costs of providing goods or services, and is the currency in which the majority of these costs are denominated and settled.

Effects of changes in foreign exchange rates on the consolidation of the financial statements are recorded in other comprehensive income and carried in the form of a cumulative translation adjustment in the accumulated other comprehensive income section of the Statement of financial position of the Group.

The presentation currency of the Group has been determined to be US Dollars reflecting the current principal equity and financing structure.

Income taxes

The Group is subject to income taxes in jurisdictions where it has foreign operations.

Significant judgement is required in determining the worldwide provision for income taxes. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The Group estimates its tax liabilities based on the Group's understanding of the tax laws in the relevant jurisdictions. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current and deferred income tax assets and liabilities in the period in which such determination is made.

The Group recognises deferred tax assets relating to carried forward tax losses to the extent there are sufficient taxable temporary differences (deferred tax liabilities) relating to the same taxation authority against which the unused tax losses can be utilised. However, utilisation of the tax losses also depends on the ability of the entity to satisfy certain tests at the time the losses are recouped.

Deferred taxation

Potential future income tax benefits have not been brought to account at 31 December 2024 and 31 December 2023 because the Directors do not believe that it is appropriate to regard realisations of future income tax benefits as probable.

Warrants

The Company measures the cost of warrants by reference to the fair value of the equity instruments at the date at which they are granted and at reporting date. The fair value of the unlisted warrants is determined using a Black-Scholes or Monte Carlos Simulation (MCS) option pricing model taking into account the terms and conditions upon which the instruments were granted. The fair value of listed warrants was based on the fair value of financial instruments traded in active markets based on the quoted market prices at reporting date.

**f) Borrowing costs**

Borrowing costs are recognised as an expense when amortised, except for borrowing cost relating to qualifying assets when the interest is capitalised to the qualifying assets.

**g) Cash and cash equivalents**

Cash and cash equivalents in the Statement of Financial Position comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less.

For the purposes of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

Restricted cash in the Statement of Financial Position refers to cash that is held for a specific reason and not available for immediate business use.

**CRITICAL METALS CORP**  
**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE HALF YEARS ENDED 31 DECEMBER 2024 AND 2023 (UNAUDITED)**

---

**h) Other receivables**

Other receivables measured at amortised cost have maturity of 12 months or less. The Group measures the loss allowance for Other Receivables at an amount equal to lifetime expected credit losses.

The Group considers an event of default has occurred when a financial asset is more than 120 days past due or external sources indicate that the debtor is unlikely to pay its creditors, including the Group. A financial asset is credit impaired when there is evidence that the counterparty is in significant financial difficulty or a breach of contract, such as a default or past due event has occurred. The Group writes off a financial asset when there is information indicating the counterparty is in severe financial difficulty and there is no realistic prospect of recovery.

**i) Investments and Fair Value Measurement**

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and equity securities classified as fair value through other comprehensive income) is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Group is the current bid price, the appropriate quoted market price for financial liabilities is the current ask price.

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Group uses a variety of methods and makes assumptions that are based on market conditions existing at each balance date. Quoted market prices or dealer quotes for similar instruments are used for long-term debt instruments held. Other techniques, such as discounted cash flows, are used to determine fair value for the remaining financial instruments.

**j) Associates**

Associates are entities over which the Group has significant influence but not control or joint control. Investments in associates are accounted for using the equity method. Under the equity method, the share of the profits or losses of the associate is recognised in profit or loss and the share of the movements in equity is recognised in other comprehensive income. Investments in associates are carried in the statement of financial position at cost plus post acquisition changes in the Group's share of net assets of the associate. Goodwill relating to the associate is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment. Dividends received or receivable from associates reduce the carrying amount of the investment.

When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

The Group discontinues the use of the equity method upon the loss of significant influence over the associate and recognises any retained investment at its fair value. Any difference between the associate's carrying amount, fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

**k) Property, Plant and Equipment**

Plant and equipment is stated at cost less accumulated depreciation and impairment. Cost includes expenditure that is directly attributable to the acquisition of the item. In the event that settlement of all or part of the purchase consideration is deferred, cost is determined by discounting the amounts payable in the future to their present value as at the date of acquisition.

Depreciation is provided on plant and equipment. Depreciation is calculated on a straight-line basis so as to write off the net cost or other revalued amount of each asset over its expected useful life to its estimated residual value. The estimated useful lives, residual values and depreciation method are reviewed at the end of each annual reporting period.

The following estimated useful lives are used in the calculation of depreciation:

|                     |         |
|---------------------|---------|
| Plant and equipment | 3 years |
| Vehicle             | 5 years |

**l) Financial instruments**

Debt and equity instruments are classified as either liabilities or as equity in accordance with the substance of the contractual arrangement. Transaction costs on the issue of equity instruments are recognised directly in equity as a reduction of the proceeds of the equity instruments to which the costs relate. Transaction costs are the costs that are incurred directly in connection with the issue of those equity instruments and which would not have been incurred had those instruments not been issued.

Interest and dividends are classified as expenses or as distributions of profit consistent with the statement of financial position classification of the related debt or equity instruments or component parts of compound instruments.

**CRITICAL METALS CORP**  
**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE HALF YEARS ENDED 31 DECEMBER 2024 AND 2023 (UNAUDITED)**

---

**m) Impairment of assets**

At each reporting date, the Company assesses whether there is any indication that an asset may be impaired. Where an indicator of impairment exists, the Company makes a formal estimate of recoverable amount. Where the carrying amount of an asset exceeds its recoverable amount the asset is considered impaired and is written down to its recoverable amount.

Recoverable amount is the greater of fair value less costs to sell and value in use. It is determined for an individual asset, unless that asset's value in use cannot be estimated to be close to its fair value less costs to sell and it does not generate cash inflows that are largely independent of those from other assets or group of assets. In which case, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying value does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised in profit or loss immediately, unless the relevant asset is carried at fair value, in which case the reversal of the impairment loss is treated as a revaluation increase.

During the half years ended 31 December 2024 and 2023 the Company has undertaken a review for the impairment of assets and not identified any triggers of impairment.

**n) Income tax**

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date.

Deferred tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences except:

- When the deferred tax liability arises from the initial recognition of assets and liabilities (other than as a result of a business combination) which affects neither the accounting profit nor taxable profit or loss; or
- When the taxable temporary difference arises from the initial recognition of goodwill; or
- When the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised to the extent that it is probable that sufficient taxable amounts will be available against which the deductible temporary differences or unused tax losses and tax offsets can be utilised, except:

- When the deductible temporary difference giving rise to the asset arises from the initial recognition of assets and liabilities (other than as a result of a business combination) which affects neither accounting profit nor taxable income; or
- When the deductible temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, in which case a deferred tax asset is only recognised to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Unrecognised deferred income tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

**CRITICAL METALS CORP**  
**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE HALF YEARS ENDED 31 DECEMBER 2024 AND 2023 (UNAUDITED)**

---

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset when they relate to the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

**o) Value added tax (VAT)**

Revenues, expenses and assets are recognised net of the amount of VAT except:

- When the VAT incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the VAT is recognised as part of the cost acquisition of the asset or as part of the expense item as applicable; and receivables and payables are stated with the amount of VAT included.
- The net amount of VAT recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Statement of Financial Position.

Cash flows are included in the Statement of Cash Flows on a gross basis and the VAT component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of VAT recoverable from, or payable to, the taxation authority.

**p) Leases**

Right of use asset

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

Lease Liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

The Group has elected not to recognise right of use assets and lease liabilities for short term leases and low value assets. For these leases, the Group recognised the lease payments as an expense on a straight line basis over the lease term.

Short-term leases and leases of low-value assets.

The Group applies the short-term lease recognition exemption for those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the lease of low-value assets recognition exemption to leases of plant and equipment that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

**q) Foreign Currency**

Foreign currency transactions and balances

All foreign currency transactions occurring during the financial year are recognised at the exchange rate in effect at the date of the transaction. Foreign currency monetary items at reporting date are translated at the exchange rate existing at reporting date. Non-monetary assets and liabilities carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined.

**CRITICAL METALS CORP**  
**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE HALF YEARS ENDED 31 DECEMBER 2024 AND 2023 (UNAUDITED)**

---

Exchange differences are recognised in the profit or loss in the period in which they arise except those exchange differences which relate to assets under construction for future productive use which are included in the cost of those assets where they are regarded as an adjustment to interest costs on foreign currency borrowings.

Functional and presentation currency

Items included in the financial statements of European Lithium AT (Investments) Ltd, ECM Lithium AT GmbH and ECM Lithium AT Operating GmbH are measured in Euro which is the currency of the primary economic environment in which they operate (the functional currency). Items included in the financial statements of Critical Metals Corp and Sizzle Acquisition Corp are measured in US dollars. The consolidated financial statements are presented in US dollars, which is the Company's presentation currency.

Group companies

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- income and expenses for each statement of profit or loss and other comprehensive income are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions), and
- all resulting exchange differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities are recognised in other comprehensive income. When a foreign operation is sold, a proportionate share of such exchange differences is reclassified to profit or loss, as part of the gain or loss on sale where applicable.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entities and translated at the closing rate.

**r) Trade and other payables**

Trade payables and other accounts payable are carried at amortised cost and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of those goods and services.

**s) Exploration and evaluation expenditure**

Exploration and evaluation expenditures in relation to each separate area of interest are recognised as an exploration and evaluation asset in the year in which they are incurred where the following conditions are satisfied:

- the rights to tenure of the area of interest are current; and
- at least one of the following conditions is also met:
  - o the exploration and evaluation expenditures are expected to be recouped through successful development and exploration of the area of interest, or alternatively, by its sale; or
  - o exploration and evaluation activities in the area of interest have not at the balance date reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in, or in relation to, the area of interest are continuing.

Exploration and evaluation assets are initially measured at cost and include acquisition of rights to explore, studies, exploratory drilling, trenching and sampling and associated activities and an allocation of depreciation and amortised of assets used in exploration and evaluation activities. General and administrative costs are only included in the measurement of exploration and evaluation costs where they are related directly to operational activities in a particular area of interest.

**CRITICAL METALS CORP**  
**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE HALF YEARS ENDED 31 DECEMBER 2024 AND 2023 (UNAUDITED)**

---

Exploration and evaluation assets are assessed for impairment when facts and circumstances suggest that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount. The recoverable amount of the exploration and evaluation asset (for the cash generating unit(s) to which it has been allocated being no larger than the relevant area of interest) is estimated to determine the extent of the impairment loss (if any). Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in previous years.

Where a decision has been made to proceed with development in respect of a particular area of interest, the relevant exploration and evaluation asset is tested for impairment and the balance is then reclassified to development.

During the half years ended 31 December 2024 and 2023 the Company has undertaken a review for the impairment of assets and not identified any triggers of impairment.

**t) Joint venture**

A joint venture is an arrangement that the Group controls jointly with one or more other investors, and over which the Group has rights to a share of the arrangement's net assets rather than direct rights to underlying assets and obligations for underlying liabilities.

The joint venture is accounted for using the equity method. Under the equity method, the share of the profits or losses of the joint venture is recognized in profit or loss and the share of the movements in equity is recognized in other comprehensive income. Investments in joint ventures are carried in the statement of financial position at cost plus post-acquisition changes in the Group's share of net assets of the joint venture.

Any goodwill or fair value adjustment attributable to the Group's share in the joint venture is not recognized separately and is included in the amount recognized as investment.

The carrying amount of the investment in joint venture is increased or decreased to recognize the Group's share of the profit or loss and other comprehensive income of the joint venture, adjusted where necessary to ensure consistency with the accounting policies of the Group.

Unrealised gains and losses on transactions between the Group and the joint venture are eliminated to the extent of the Group's interest in those entities. Where unrealised losses are eliminated, the underlying asset is also tested for impairment.

**u) Share capital**

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options for the acquisition of a business are not included in the cost of the acquisition as part of the purchase consideration.

**v) Warrants**

Warrants are classified as liabilities because the warrants do not meet the criteria for equity treatment. Accordingly, the Company will classify each warrant as a liability at its fair value. This liability is subject to re-measurement at each balance sheet date. With each such re-measurement, the warrant liability will be adjusted to fair value, with the change in fair value recognized in the Company's consolidated statement of comprehensive income.

**w) Segment reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the Board of Directors who is responsible for making strategic decisions.

**CRITICAL METALS CORP**  
**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE HALF YEARS ENDED 31 DECEMBER 2024 AND 2023 (UNAUDITED)**

**3. SEGMENT INFORMATION**

*IFRS 8 Operating Segments* requires operating segments to be identified on the basis of internal reports that are regularly reviewed by the Chief Operating Decision Maker (**CODM**) to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. In the case of the Group the CODM are the executive management team and all information reported to the CODM is based on the consolidated results of the Group as one operating segment, as the Group's activities relate to mineral exploration.

Accordingly, the Group has only one reportable segment and the results are the same as the Group results.

**a) Segment assets by geographical region**

The total of non-current assets other than financial instruments and deferred tax assets, broken down by location of the assets:

|                                 | <b>31 December<br/>2024</b> | <b>30 June<br/>2024</b> |
|---------------------------------|-----------------------------|-------------------------|
|                                 | <b>\$</b>                   | <b>\$</b>               |
| <b>Geographical information</b> |                             |                         |

**Consultants and professional services expenses, Compliance and regulatory fees and Promotion, IR and PR expenses**

As a result of changes in disclosure categories at 30 June 2024, amounts previously reported under ‘Consultants and professional services expenses’ have been split out and are now reported under ‘Consultants and professional services expense’, ‘compliance and regulatory fees’ and ‘promotion, IR and PR expenses’ to align with the presentation from the 30 June 2024 Statement of Comprehensive Income. These reclassifications have been made to enhance the comparability and relevance of the financial information and do not affect the previously reported net income or total equity for the half year ended 31 December 2023.

| <b>Unrecognised temporary differences</b>                                                                  |                           |                       |
| Deferred tax assets have not been recognised in respect of the following items:                            |                           |                       |
| Start-up organisational expenses                                                                           | 14,548,197                | 14,548,197            |
| Deferred exploration and evaluation expenditure                                                            | 6,666,794                 | 7,257,748             |
| Carry forward tax losses                                                                                   | 18,889,805                | 16,175,180            |
|                                                                                                            | 40,104,796                | 37,981,125            |
| Net unrecognised deferred tax asset/(liability) at the respective rates of 0%, 21% and 23.0% (2024: 23.0%) | 9,304,231                 | 8,768,199             |

Potential future income tax benefits arising from tax losses have not been brought to account at 31 December 2024 and 30 June 2024 because the directors do not believe it is appropriate to regard realisation of the future income tax benefits as probable. These benefits will only be obtained if:

- assessable income is derived of a nature and of amount sufficient to enable the benefit from the deductions to be realised;
- the Company continues to comply with the conditions for deductibility imposed by law; and
- no changes in tax legislation adversely affect the realisation of the benefit from the deductions.

The Company is subject to taxation for its consolidated subsidiaries at the rates applicable in the respective tax jurisdictions:

- Austria - Profits are taxed at the standard corporate income tax (CIT) rate of 23% in Austria (30 June 2024: 23%), regardless of whether profits are retained or distributed. For the net unrecognised deferred tax asset as of 31 December 2024 a tax rate of 23% was used and for the net unrecognised deferred tax asset as of 31 December 2023 a tax rate of 23% was used based on the assessment of the future utilization by the management. Tax losses can be carried forward in Austria without time limitation. In general Tax losses carried forward can be offset against taxable income only up to a maximum of 75% of the taxable income for any given year.
- United States - The profits are taxed at the rate of 21% at the US Federal taxation level and subject to state taxation in the United States.
- United Kingdom – Profits are taxed at the rate of 25% where the Company is considered to be a tax resident
- British Virgin Islands - BVI Business companies are exempt from any taxation, regardless their source of income.

**CRITICAL METALS CORP**  
**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE HALF YEARS ENDED 31 DECEMBER 2024 AND 2023 (UNAUDITED)**

**6. CASH AND CASH EQUIVALENTS**

|                          | <b>31 December<br/>2024</b> | <b>30 June<br/>2024</b> |
|--------------------------|-----------------------------|-------------------------|
|                          | <b>\$</b>                   | <b>\$</b>               |
| Cash at bank and in hand | 149,480                     | 1,259,242               |
|                          | <u>149,480</u>              | <u>1,259,242</u>        |

Cash at bank earns interest at floating rates based on daily bank deposit rates.

**7. OTHER RECEIVABLES**

|                                                                   | <b>31 December<br/>2024</b> | <b>30 June<br/>2024</b> |
|-------------------------------------------------------------------|-----------------------------|-------------------------|
|                                                                   | <b>\$</b>                   | <b>\$</b>               |
| Security deposit                                                  | 4,113                       | 4,242                   |
| GST / VAT receivable                                              | 93,901                      | 82,812                  |
| Interest receivable on restricted cash                            | 299,168                     | 41,625                  |
| Funds receivable in respect to the exercise of warrants (note 21) | -                           | 709,251                 |
| Other receivables                                                 | 5,482                       | -                       |
|                                                                   | <u>402,664</u>              | <u>837,930</u>          |

These amounts arise from the usual operating activities of the Company and, with the exception of interest receivable on restricted cash, are non-interest bearing. The debtors do not contain any overdue or impaired receivables. The lifetime expected credit loss allowance is not material.

**8. PREPAID EXPENSES**

|                                           | <b>31 December<br/>2024</b> | <b>30 June<br/>2024</b> |

| Funds held on deposit against offtake prepayment (i) | 15,000,000                  | 15,000,000              |
| Term deposits (ii)                                   | 20,046                      | 20,679                  |
|                                                      | <u>15,020,046</u>           | <u>15,020,679</u>       |

(i) On 1 June 2024, Bayerische Motoren Werke Aktiengesellschaft (BMW) transferred funds of US \$15 million to ECM Lithium in relation to the offtake of battery grade lithium hydroxide (LiOH) from the Wolfsberg Project. The funds are held in a deposit account secured against a bank guarantee (note 19) and are to be offset against LiOH delivered to BMW.

(ii) Restricted cash relates to the bank guarantees provided by ECM Lithium to the value of €20,000 in respect of any unrepaired damage to property at the Wolfsberg Project. These deposits are subject to restrictions and are therefore not available for general use by the entities within the Group (note 26).

- (i) On 5 June 2024, CRML entered into a heads of agreement to acquire 92.5% of the issued capital of Rimbal Pty Ltd (**Vendor**) which is the registered holder of 92.5% of the issued capital of Tanbreez Mining Greenland A/S (**Tanbreez**) which holds the only exploitation permit for rare earths in Greenland (**HOA**). The HOA was comprised of the following stages:

1. Initial Investment of US\$5,000,000 to acquire a 5.55% equity interest in Tanbreez

**CRITICAL METALS CORP**  
**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE HALF YEARS ENDED 31 DECEMBER 2024 AND 2023 (UNAUDITED)**

2. Stage 1 interest – Issue of US\$90,000,000 of shares in CRML subject to holding lock until 28 February 2025 to acquire a 36.45% equity interest in Tanbreez (note 21)
3. Stage 2 interest – Issue of US\$116,000,000 of shares in CRML equal to 95% of the closing price of CRML shares on the date upon which CRML meets a minimum of US\$10 million on the permit within 2 years to acquire a 50.50% equity interest in Tanbreez

Under the terms of the HOA, CRML has the right to appoint two directors to the board of Tanbreez. On 2 July 2024, Tony Sage was appointed as CRML's representative on the Board of Tanbreez.

The Vendor is a company controlled by geologist Gregory Barnes. Under the terms of the HOA, at completion of Stage 1 Interest, Gregory Barnes was appointed Strategic advisor to the board of CRML.

As at 31 December 2024, the CRML Group had completed the Initial Investment and Stage 1 interest and held an interest of 42.0% interest in Tanbreez. In addition, CRML's controlling entity European Lithium Limited holds a 7.5% interest in Tanbreez and consequently held a 49.5% interest in Tanbreez as at 31 December 2024. As at 31 December 2024, consistent accounting policies have been applied in respect to the accounting of Tanbreez by the Group.

- (i) On July 4, 2023, CRML, GEM Global Yield LLC SCS (the **GEM Investor** or **GEM Global**) and GEM Yield Bahamas Ltd. (**GYBL**) entered into a Share Purchase Agreement (the **GEM Agreement**), pursuant to which the Company is entitled to draw up to \$125 million of gross proceeds in exchange for ordinary shares in the Company, at a price equal to 90% of the average closing bid price of the ordinary shares on Nasdaq for a 30 day period, subject to meeting the terms and conditions of the GEM Agreement. The GEM Agreement allows CRML to access funds for general corporate purpose and working capital needs. In addition, at the closing of the Transaction, the GEM Investor was granted a warrant (the **GEM Warrant**) to purchase up to 1,814,797 Ordinary Shares at an exercise price of \$10.71 per share (subject to adjustments described in the GEM Warrant) expiring on the 3rd anniversary of the closing of the Transaction (refer note 20). Further, in connection with the closing of the Transaction, the Company also entered into a letter agreement with the GEM Investor and GYBL to amend the GEM Agreement, pursuant to which, the Company agreed to issue ordinary shares in the Company to the GEM Investor as the “commitment fee” pursuant to the Share Purchase Agreement and, on the 61st day following the closing of the Transaction, the GEM Investor was granted the option to sell such commitment shares (equating to 122,549 shares) to the Company for US\$1.875 million (the **Commitment Fee Put Amount**). In addition, the GEM Investor, on the first anniversary of the closing of the Transaction, was granted the right to require CRML to purchase the GEM Warrant from GEM Global in exchange for a number of ordinary shares in the Company having a value equal to US\$27,200,000 (refer note 20). On February 27, 2025, the GEM Investor delivered notice of its exercise of this right, but as of the date of this report such shares had not yet been issued (refer note 33). On April 29, 2024, CRML, GEM Global and GYBL entered into a second letter agreement, pursuant to which, CRML was granted the option to deliver, in lieu of the Commitment Fee Put Amount on the date upon which it was otherwise due and payable, a payment of \$3,020,000 on or prior to the 120th day after the closing of the Transaction. On 27 September 2024, Critical Metals Corp (CRML) entered into a third letter agreement with GEM Global Yield LLC SCS (GEM Global) and GEM Yield Bahamas Ltd. (GYBL) to extinguish the existing arrangement in respect to the Commitment Fee Put Amount of \$3,020,000 (refer to note 18 in the financial statements). Under the new agreement, CRML is obliged to deliver a cash payment of US\$3,500,000 (Revised Amount) to GEM Global within one business day following the consummation by CRML of a capital raising transaction provided that the gross proceeds received by CRML in connection with the capital raising transaction are equal to or greater than \$15,000,000. If the gross proceeds received by CRML in connection with the capital raising transaction are less than \$15,000,000, CRML shall deliver (i) a cash payment of \$1,750,000 to GEM Global within one business day following the consummation by CRML of the Equity Capital Raise, and (ii) a cash payment of \$1,750,000 (the Deferred Payment) to GEM Global on or before the 90th day following the Equity Capital Raise. If CRML does not deliver the Deferred Payment by the 90th day following the capital raising transaction, CRML shall incur a penalty of \$10,000 per day, payable in USD, which penalty shall be added to the deferred payment amount until paid by CRML. If CRML does not consummate a capital raising transaction by 31 December 2024, CRML shall owe the revised amount of \$3,500,000 and such amount shall incur interest at a 10% annual rate (which interest shall begin on the Commitment Fee Put Date and continue until such revised amount is paid). As at 31 December 2024 the amount payable to GEM Global and GYBL by CRML comprises the revised amount of US\$3,500,000 plus accrued interest of US\$235,890.

- (i) On 26 October 2022, European Lithium Ltd (EUR) announced that it has entered into a business combination agreement with Sizzle Acquisition Corp., a US special purpose acquisition company listed on NASDAQ (NASDAQ:SZZL) (Sizzle), pursuant to which EUR will effectively sell down its shareholding in European Lithium AT (Investments) Ltd, ECM Lithium AT GmbH and ECM Lithium AT Operating GmbH (collectively EUR Austria), which hold the Wolfsberg Lithium Project and certain other mineral permits prospective for lithium in Austria, in consideration for the issue of shares in the Company (Transaction). The Transaction was approved by EUR shareholders on 20 January 2023 and on 22 February 2024, Sizzle shareholders approved the Transaction at a special meeting. CRML commenced trading on the Nasdaq on 28 February 2024. In accordance with the Transaction, EUR will be reimbursed for certain expenses incurred in respect to the Transaction.

In addition, EUR has provided funding to CRML to cover certain operational expenses since closing of the Transaction. As at 31 December 2024, a total of \$5,060,275 is repayable to EUR. The funds advanced are repayable on demand.

**a) Warrants issued on 27 February 2024 with exercise price of \$10.00 (subject to adjustments)**

On 27 February 2024, a total of 350,000 warrants were issued to Polar Multi-Strategy Master Fund (**Polar**) to settle historic obligations of Sizzle. The unlisted warrants are exercisable at \$10.00 each (subject to adjustments) on or before 27 May 2025. Effective as of 27 February 2025, the exercise price of such warrants was adjusted to \$5.00 per share (refer note 33).

The warrants are classified as derivative liabilities because it converts into a variable number of shares and its value varies with the Company's share price.

The fair value of the warrants granted to Polar is estimated as at the date of issue using the Black and Scholes option pricing model taking into account the terms and conditions upon which the warrants were granted.

|                           | <b>Assumptions</b> |
|---------------------------|--------------------|
| Number warrants issued    | 350,000            |
| Dividend yield            | 0.00%              |
| Expected volatility       | 75%                |
| Risk-free interest rate   | 4.948%             |
| Expected life of warrants | 1.25 years         |
| Exercise price            | \$ 10.00           |
| Issue date share price    | \$ 10.20           |

**CRITICAL METALS CORP**  
**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE HALF YEARS ENDED 31 DECEMBER 2024 AND 2023 (UNAUDITED)**

The expected life of the warrants is based on historical data and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome.

The fair value of the warrants granted is estimated as at 31 December 2024 using the Black and Scholes option pricing model taking into account the terms and conditions upon which the warrants were granted.

|                                 | <b>Assumptions</b> |
|---------------------------------|--------------------|
| Number warrants issued          | 350,000            |
| Dividend yield                  | 0.00%              |
| Expected volatility             | 80%                |
| Risk-free interest rate         | 4.255%             |
| Expected life of warrants       | 0.41 years         |
| Exercise price                  | \$ 10.00           |
| Share price at 31 December 2024 | \$ 6.79            |

**b) Empery PIPE Investor Warrants issued on 27 February 2024 with exercise price of \$10.00 (subject to adjustments)**

On 27 February 2024, a total of 1,000,000 warrants were issued to three Funds affiliated with Empery Asset Management LP (**Empery**) as part of the PIPE funding for consideration of US\$9,880,682. The unlisted warrants are exercisable at US\$10.00 each (subject to adjustments) on or before 27 May 2025. The Empery Warrants provide the PIPE Investor with 3 Additional Shares for each Ordinary Share that the PIPE Investor purchases upon exercise of the PIPE Investors' Warrants. Effective as of 27 February 2025, the exercise price of such warrants was adjusted to \$5.00 per share (refer note 33).

The PIPE Investor Warrants are classified as derivative liabilities because it converts into a variable number of shares and its value varies with the Company's share price.

The fair value of the PIPE Investor Warrants is estimated as at the date of issue using the Black and Scholes option pricing model taking into account the terms and conditions upon which the warrants were granted.

|                           | <b>Assumptions</b> |
|---------------------------|--------------------|
| Number of warrants issued | 1,000,000          |
| Dividend yield            | 0.00%              |
| Expected volatility       | 75%                |
| Risk-free interest rate   | 4.948%             |
| Expected life of warrants | 1.25 years         |
| Exercise price            | \$ 10.00           |
| Issue date share price    | \$ 10.20           |

As the fair value determined using the Black Scholes Model of the Warrants issued to PIPE Investors was in excess of the US\$9,880,682 cash received, the difference in fair value of the derivative liability and consideration received (the Calibration Allowance) is deferred and amortised over the 15 months that the warrant was exercisable or fully recognised as an expense when the warrant was exercised.

On 18 June 2024 Empery Asset Management LP (Empery) exercised 600,000 of the PIPE Warrants to acquire 2.4 million CMRL shares for US\$6 million. This related to 600,000 CMRL shares at US\$10 per share and the 3 additional shares provided to PIPE Investors upon exercise of the PIPE Warrants.

As at 31 December 2024 the fair value of the warrants is as follows:

|                                 | <b>Assumptions</b> |
|---------------------------------|--------------------|
| Number of warrants issued       | 400,000            |
| Dividend yield                  | 0.00%              |
| Expected volatility             | 80%                |
| Risk-free interest rate         | 4.255%             |
| Expected life of warrants       | 0.41 years         |
| Exercise price                  | \$ 10.00           |
| Share price at 31 December 2024 | \$ 6.79            |

**CRITICAL METALS CORP**  
**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE HALF YEARS ENDED 31 DECEMBER 2024 AND 2023 (UNAUDITED)**

**c) Warrants issued on 27 February 2024 with exercise price of \$10.71 (subject to adjustments)**

On 27 February 2024, a total of 1,814,797 warrants were issued to Gem Global Yield LLC SCS (GEM) for a credit facility to be made available to the Company. The unlisted warrants are exercisable at \$10.71 each (subject to adjustments) on or before 27 February 2027. The warrants are classified as derivative liabilities because it converts into a variable number of shares and its value varies with the Company's share price. Effective as of 27 February 2025, the exercise price of such warrants was adjusted to \$5.00 per share (refer note 33).

The fair value of the warrants granted is estimated as at the date of grant using the Monte Carlos Simulation (MCS) model taking into account the terms and conditions upon which the warrants were granted.

|                           | <b>Assumptions</b> |
|---------------------------|--------------------|
| Number warrants issued    | 1,814,797          |
| Dividend yield            | 0.00%              |
| Expected volatility       | 75%                |
| Risk-free interest rate   | 4.5%               |
| Expected life of warrants | 3.00 years         |
| Exercise price            | \$ 10.71           |
| Issue date share price    | \$ 10.20           |

The expected life of the warrants is based on historical data and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome.

The fair value of the warrants issued is estimated as at 31 December 2024 using the Monte Carlos Simulation (MCS) model taking into account the terms and conditions upon which the warrants were granted.

|                                 | <b>Assumptions</b> |
|---------------------------------|--------------------|
| Number warrants issued          | 1,814,797          |
| Dividend yield                  | 0.00%              |
| Expected volatility             | 80%                |
| Risk-free interest rate         | 4.253%             |
| Expected life of warrants       | 2.16 years         |
| Exercise price                  | \$ 10.71           |
| Share price at 31 December 2024 | \$ 6.79            |

From 1 March 2025 the GEM Investor has the right require CRML to purchase the GEM Warrant from GEM Global in exchange for a number of ordinary shares in the Company having a value equal to US\$27,200,000. Accordingly, the GEM Warrants are valued at the higher amount of the fair value of the warrant and US\$27,200,000. On February 27, 2025, the GEM Investor delivered notice of its exercise of this right, but as of the date of this report such shares had not yet been issued (refer note 33).

**d) Additional warrants issued to Empery Asset Management LP**

On 17 June 2024, a total of 1,000,000 warrants were issued to Empery Asset Management LP (**Empery**) induce early conversion of the February 2024 warrants. The unlisted warrants are exercisable at \$11.45 each (subject to adjustments) on or before 18 June 2029. The warrants are classified as derivative liabilities because it converts into a variable number of shares and its value varies with the Company's share price. Effective as of 27 February 2025, the exercise price of such warrants was adjusted to \$5.00 per share (refer note 33).

The fair value of the warrants is estimated as at the date of grant using the Black and Scholes option pricing model taking into account the terms and conditions upon which the warrants were granted.

|                           | <b>Assumptions</b> |
|---------------------------|--------------------|
| Number warrants issued    | 1,000,000          |
| Dividend yield            | 0.00%              |
| Expected volatility       | 75%                |
| Risk-free interest rate   | 4.3%               |
| Expected life of warrants | 5.00 years         |
| Exercise price            | \$ 11.45           |
| Issue date share price    | \$ 11.30           |

The expected life of the warrants is based on historical data and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome.

**CRITICAL METALS CORP**  
**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE HALF YEARS ENDED 31 DECEMBER 2024 AND 2023 (UNAUDITED)**

The fair value of the warrants issued is estimated as at 31 December 2024 using the Black and Scholes option pricing model taking into account the terms and conditions upon which the warrants were granted.

|                                 | <b>Assumptions</b> |

|                                                                            | <b>31 December<br/>2024<br/>Number</b>       | <b>31 December<br/>2023<br/>Number</b>       |
| Weighted average number of shares                                          | 88,390,180                                   | 100                                          |

There are dilutive potential ordinary shares on issue at reporting date. Given the Company has made a loss and has no warrants on issue, there is no dilution of earnings hence the diluted loss per share is the same as for basic loss per share.

**26. COMMITMENTS AND CONTINGENCIES**

**a) Exploration commitments**

The Group has no minimum expenditure requirements in relation to its exploration and mining licences at its Wolfsberg Project other than minimal annual licence and mine safety fees.

**b) Contingencies**

On 12 February 2024, the Company entered into a letter agreement with Jett Capital in respect to their fees in connection with the Transaction. Jett Capital are entitled to a fee of \$3,331,718 at closing of the first equity or equity linked offering by, or placement into the Company, a fee of \$3,331,718 at closing of the second equity or equity linked offering by, or placement into the Company and a fee of \$6,663,435 at closing of the third equity or equity linked offering by, or placement into the Company. In addition, Jett Capital and CCM are collectively entitled to a cash fee of 5% of the PIPE financing proceeds for their services as co-placement agents, to be shared equally between CCM and Jett Capital. Should the PIPE financing proceeds be raised by Jett Capital not as co-placement agent, then Jett Capital is entitled to a cash fee of 5% of the PIPE financing proceeds along with private placement warrants equal to 5% of the total offering size.

On 27 February 2024, the Company entered into a letter agreement with CCM in respect to their fees in connection with the Transaction. CCM are entitled to a fee of \$1,250,000 at closing of the first equity or equity linked offering by, or placement into the Company, a fee of \$1,250,000 at closing of the second equity or equity linked offering by, or placement into the Company and a fee of \$1,250,000 at closing of the third equity or equity linked offering by, or placement into the Company. In addition, Jett Capital and CCM are collectively entitled to a cash fee of 5% of the PIPE financing proceeds for their services as co-placement agents, to be shared equally between CCM and Jett Capital.

**CRITICAL METALS CORP**  
**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE HALF YEARS ENDED 31 DECEMBER 2024 AND 2023 (UNAUDITED)**

On 31 March 2024, the Company entered into a consulting agreement with ICR LLC (ICR). ICR are entitled to a fee of \$250,000 upon completion of the Company's next round of funding.

On 5 June 2024, the Company entered into a heads of agreement to acquire 92.5% of the issued capital of Rimbal Pty Ltd (Vendor) which is the registered holder of 92.5% of the issued capital of Tanbreez Mining Greenland A/S (Tanbreez) which holds the only exploitation permit for rare earths in Greenland (HOA). As at 31 December 2024, the CRML Group had completed the Initial Investment and Stage 1 interest and held an interest of 42.0% interest in Tanbreez. In addition, CRML's controlling entity European Lithium Limited holds a 7.5% interest in Tanbreez and consequently held a 49.5% interest in Tanbreez as at 31 December 2024. The stage 2 interest to acquire the 50.50% equity interest in Tanbreez is subject to CRML expending a minimum of US\$10 million on the permit with 2 years from execution of the HOA (note 12).

The Company has provided bank guarantees to the value of €20,000 in respect of any unrepaired damage to property at the Wolfsberg project (note 9).

There has been no other change in contingent liabilities since the last annual reporting date.

**28. RELATED PARTY DISCLOSURES**

Balances between the Company and its subsidiaries which are related parties of the Company have been eliminated on consolidation and are not disclosed in this note. Details of percentage of ordinary shares held in subsidiaries are disclosed in Note 31 to the financial statements. Note 31 provides information about the group's structure including the details of the subsidiaries and the holding company.

During the half year ended 31 December 2024 the Company received capital contributions from European Lithium Limited (ASX: EUR), being the previous parent entity of the Company of \$1,737,438 (note 18). As at 31 December 2024, the amount owing was \$6,008,590 (30 June 2024: \$4,268,857).

**29. SIZZLE ACQUISITION**

On 26 October 2022, European Lithium Ltd (**EUR**) announced that it had entered into an acquisition agreement with Sizzle Acquisition Corp., a US special purpose acquisition company listed on NASDAQ (NASDAQ:SZZL) (**Sizzle**), pursuant to which EUR will effectively sell down its shareholding in European Lithium AT (Investments) Ltd, ECM Lithium AT GmbH and ECM Lithium AT Operating GmbH (collectively **EUR Austria**), which hold the Wolfsberg Lithium Project and certain other mineral permits prospective for lithium in Austria, in consideration for the issue of shares in the Company (**Transaction**). The Transaction was approved by EUR shareholders on 20 January 2023 and on 22 February 2024, Sizzle shareholders approved the transaction as a special meeting. CRML commenced trading on the Nasdaq on 28 February 2024.

**CRITICAL METALS CORP**  
**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE HALF YEARS ENDED 31 DECEMBER 2024 AND 2023 (UNAUDITED)**

The Company has accounted for the Transaction in accordance with the March 2013 IFRIC Agenda Decision. The Company's listing expenses includes the value of shares provided to Sizzle founding shareholders net of the net assets acquired in Sizzle. The listing expense of \$63,410,794 has been calculated by the Company comprising:

- 4,221,600 shares in CRML to Sizzle founding shareholders, which in accordance with AASB 2 have been valued using the Sizzle common share price of \$10.20 per share,
- 91,999 shares in CRML to Sizzle existing shareholders, which in accordance with AASB 2 have been valued using the Sizzle common share price of \$10.20 per share,
- 799,600 public shares in CRML acquired by Empery, which in accordance with AASB 2 have been valued using a share price of \$11.03 per share being the price paid for the shares by Empery on the open market, and
- At completion of the Transaction, Sizzle had a net liability position of \$10,473,822 as set out below.

In accordance with IFRS 2, the Company has treated the difference between the net liability position and fair value of the shares and warrants of \$67,797,276 as a listing expense.

**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE HALF YEARS ENDED 31 DECEMBER 2024 AND 2023 (UNAUDITED)**

---

**33. EVENTS AFTER THE REPORTING PERIOD**

Since 1 January 2025 to the date of authorising these accounts, European Lithium Ltd provided funding of \$0.8 million to the Company and the Company repaid funds of \$1.6 million to European Lithium Ltd in respect to previous amounts advanced.

On 21 January 2025, the Company announced that it had approved a comprehensive bitcoin (BTC) treasury strategy, adopting BTC as a primary asset in its treasury program. As part of the convertible note financing, led by JBA Asset Management, Critical Metals Corp may have access to up to \$500 million to purchase BTC subject to the conditions of the Transaction Documents, with \$100 million closing in the first tranche (the "Initial Closing"), which may be used to purchase BTC, subject to certain conditions being met. The \$100 million first tranche was issued with 100% warrant coverage and subsequent tranches totalling up to \$400 million at the Buyers discretion will have 50% warrant coverage. At the Initial Closing, the Company shall issue to the lead investor (i) 1,000,000 ordinary shares of the Company and (ii) warrants to purchase 14,285,714 ordinary shares. The Initial Closing is expected to occur in the second quarter of 2025; however, no assurances can be given that the closing conditions will be met or that the Initial Closing will occur.

On 7 February 2025, the Company completed a private placement of its ordinary shares resulting in aggregate gross proceeds of approximately US\$24.6 million (before expenses). Funding raised will be used in developing plans for both the Tanbreez Project and Wolfsberg Project and for general corporate and working capital purposes. Under the terms of the securities purchase agreement, the Company issued approximately 4.9 million ordinary shares (the "PIPE Shares") and warrants to purchase ordinary shares (the "PIPE Warrants"), in an amount equal to 100% of the aggregate PIPE Shares, an aggregate offering price of US\$5.00 per PIPE Share and PIPE Warrant. The PIPE Warrants have a strike price of US\$7.00 and an expiry date of 4-years from Issue Date. The shares sold in the private placement are subject to resale registration rights.

On 27 February 2025, the Company announced the appointment of Mr Michael Ryan as Independent Director to the Company's Board effective 1 March 2025. On the same day, the Company entered into an agreement with Mike Ryan for the provision of consulting services. Under the terms of the agreement, the consultant was offered 100,000 RSU's which vest on 1 July 2025 subject to the consultant being engaged by the Company at this time.

On 27 February 2025, the Company delivered a notice of price adjustment to certain holders of private warrants (the "Private Warrants") to purchase Ordinary Shares. Pursuant to the terms of the Private Warrants, upon the occurrence of certain specified events, the warrant price and/or number of shares issuable upon exercise of such Private Warrants is subject to adjustment from time to time as set forth therein. As a result of certain events, the exercise price of the Private Warrants was adjusted to \$5.00 per share effective as of February 27, 2025. Holders of the Private Warrants include Polar Multi-Strategy Master Fund, certain funds affiliated with Empery Asset Management, LP and Gem Global Yield LLC SCS. In the aggregate, the Private Warrants are exercisable for 3,564,797 Ordinary Shares.

The GEM Investor, on the first anniversary of the closing of the Business Combination, was granted the right to require us to purchase the GEM Warrant from GEM Global in exchange for a number of Ordinary Shares having a value equal to \$27,200,000. On February 27, 2025, the GEM Investor delivered notice of its exercise of this right, but as of the date hereof such shares had not yet been issued.

Pursuant to letter agreements entered into with GEM Global and GYBL, we agreed to deliver, in lieu of the Commitment Fee Put Amount on the date upon which it was otherwise due and payable, a cash payment of \$3,500,000 following the consummation of a capital raising transaction. The private placement transaction that occurred on 7 February 2025 constitutes a capital raising transaction and such cash payment payable under the letter agreement accrues interest at a 10% annual rate until paid. As of the date hereof, we have not made such payment.

On 28 February 2025, the Board resolved to approve the issue of 500,000 shares in CRML and a bonus cash payment of US\$100,000 to the CEO and Executive Chairman Mr Tony Sage.

On 13 March 2025, we announced the maiden mineral resource estimate (MRE) in accordance with Regulation SK-1300 report for the Tanbreez Project.

On 13 March 2025, the Company entered into a letter agreement with the Obeikan Group extending the long stop end date to 30 June 2025 thus allowing the Company additional time to satisfy the outstanding conditions precedent in respect to the joint venture.

No other matters or circumstances have arisen since the end of the financial year which significantly altered or may significantly alter the operations of the Company, the results of those operations or the state of affairs of the Company in financial years subsequent to 31 December 2024.
